PRESIDENT'S MESSAGE

by George Wirth, PE

As I am writing this article the Maryland General Assembly 2008 session has just ended. One of their last acts was to take \$50 million dollars from the Transportation Trust Fund to balance the budget to account for the loss of revenue from the elimination of sales tax on computer services. I wonder where they are going to spend the \$50 million. I can't believe that it is more important than the \$50 million worth of transportation projects that we could have had. Everyone in the state government including the Governor, the Comptroller, and Republicans and Democrats in the legislature all agree that we need to spend more on transportation, but no one will take a leadership role and do the right thing and commit the dollars to it. They had the opportunity this year to raise the gas tax to support transportation. But our elected officials could not get the bill passed.

This is a good example of why ACEC/MD has to continue to be politically active. We need to remain vigilant and support our legislative action items. We do that two ways, by raising money for our CEPAC, and by monitoring and proactively reacting to legislation through our Legislative Committee. How do our member firms help with our political activity? By participating in the Legislative Committee, by writing letters, by meeting and calling legislators to let them know our opinion, and finally by supporting CEPAC with their pledges and contributions.

This year we have been successful with two bills we were supporting, the continuation of the State Ethics law and changes to the Small Business Reserve Program. Extending the section in the State Ethics Law (Section 15-508) passed in 2006 that allows for fair competition on Design/Build projects passed the General Assembly. Increasing the state's Small Business Reserve Program design firm size from the \$2-million level to \$4.5-million also passed. I would like to thank every firm for their support and continued support of ACEC/MD's legislative agenda.

On the national level we support ACEC's legislative agenda the same way, by contacts with our Congressman and Senators and contributing to ACEC/PAC. We are presently fund raising for ACEC/PAC and we need individual's contributions to meet our 2008 goals. So when asked, please get involved by giving us a contribution. April 29th is our annual Consulting Congress Day, where we go to Washington and meet with our congressional representatives and present ACEC's Legislative Agenda. Please join me and other ACEC/MD member firm representatives in this very important event.

2008 marks the Maryland Highway Centennial celebration, which is being supported by ACEC/MD and our member firms. The next event on the year long celebration is a luncheon on April 30th at the Engineers Club. This date marks the actual anniversary of the creation of the State Roads Commission. I encourage all of our member firms to support the important activities planned to celebrate the Maryland Highway Centennial.

I wrote to you last month about a new ad hoc committee we are organizing this year that will focus on promoting small firms

and discussing small firm issues. The new Small Business Enterprise Committee (SBE) will also be the voice of small businesses for ACEC/MD. I want to encourage all small firms to participate in this new committee.

The next ACEC conference is planned for April 27 through the 30th in Washington, D.C., where the focus will be on legislative issues and lobbying Congress. If you are interested in the details of the spring conference go to www.acec.org.

We have an interesting program lined up for our Annual Conference on June 26 through 28, 2008 in historic Charleston, South Carolina. Details will follow, so please save the dates. I hope to see representatives from all of our member firms in Charleston.

I know I sound like a broken record, but participation by member firms is what makes our organization affective. So again, I want to continue to encourage member firms to get involved with an ACEC/MD committee. This is the best way to get the most value from your membership. Now is the time to consider what committee you would like to serve on in the new fiscal year. We need your help and support to continue to make a difference. If you are not sure what committee to get involved with, contact me, and I will steer you in the right direction.

SEEKING EMPLOYMENT

The following individual is seeking employment and has a complete resume on file in the ACEC/MD office. Please phone 410-539-1592 if you are interested in obtaining a copy.

1. Recruitment professional with over 14 years of broad experience in a 600-person nationally recognized consulting engineering firm seeks position within and outside Human Resources.

CONGRATULATIONS, YOU DID IT!

ACEC/MD is pleased to announce that through the efforts and generosity of its member firm representatives, ACEC/MD was successful in achieving the ACEC/PAC 2007 goal established for federal (ACEC/PAC) fundraising. Through the efforts of ACEC/PAC champions Fred Wagner (Greenhorne & O'Mara) and Dan Cheng (Johnson, Mirmiran & Thompson), ACEC/MD raised over \$12,300 in 2007, joining the 33 other ACEC member organizations that achieved their goals.

During 2007 ACEC members contributed over \$500,000 to ACEC/PAC compared to the \$443,000 raised in 2006. To achieve the goal of raising \$800,000 in 2008, it will be important to increase the number of first time contributors.

How is it this important to your business? To protect the A/E industry's interest in Congress, it is essential that ACEC members engage the members of Congress in the political process. This often means helping to fund the campaigns of past friends in Congress and targeting members on important committees that ACEC needs to educate about the issues that are important to your firm.

This effort has played an important role in electing pro-business House and Senate members that have successfully promoted issues such as:

- New 9% tax reduction for A/E firms
- New Fair Labor Standard Act rules to ease compliance and avoid costly lawsuits
- New six-year Highway Bill, representing a 30% increase in funding.
- New Energy Bill stimulating the power sector
- Increased contracting-out by federal and state agencies.

ACEC's work is far from finished! This year ACEC is focusing on:

- Elimination of a new federal mandate that will require all federal, state, and even some local government clients to withhold 3% from payments to engineering firms and other contractors.
- Final passage of critically needed legislation that will boost investment in our nation's water infrastructure.

- Solutions to address looming funding shortfalls for transportation.
- Ways to address the growing shortage of engineers.

The Democratic majority presents tremendous opportunities along with challenges to maintain many of the pro-business policies that were initiated under the previous Congress. In order to achieve its strategic goal of becoming a \$1,000,000 PAC, ACEC has once again increased the goals for its member organizations. ACEC/MD is now expected to raise over \$14,500. Your contributions not only make a difference throughout the country, but also for our elected leaders that will look to champion pro-business issues right here in Maryland.

In order to achieve Maryland's ACEC/PAC goal, we need the support of all of our member firm representatives. A small amount from everyone will go a long way. We are again suggesting that the leaders of the organization, which includes officers, directors, and committee chairs, contribute at least \$200, while the leaders of our firms should consider contributing a minimum of \$100.

In order to make this contribution as painless as possible, ACEC is once again offering an exciting sweepstakes drawing. Prior to April 30, 2008, for only a \$200 contribution, individuals can enter a drawing with a top prize of \$10,000. With only 400 tickets being sold, it is difficult to beat these odds.

Thank you to the following individuals that stepped up to the plate in 2007 to support the business issues that impact all of our member firms. If your name is not included in this list, we sincerely hope that you will join your colleagues that have made a reasonable financial contribution to ACEC/PAC on behalf of the profession.

CELEBRATING A CENTURY OF MOVING FORWARD.

by Valerie Burnette Edgar, Director, SHA Office of Communications

It's official! Now that spring has sprung, Maryland's 2008 Highway Centennial is in full bloom. If the first two major events of the year-long celebration are any indication, the 100th Anniversary Celebration of Modern Road Building is off to a bright start.

It began with early-summer-like temperatures in the 70s heralding our January 7th kick-off event. We paid tribute to Honorary Centennial Chairman Governor Harry R. Hughes and dedicated the I-95 Southbound Laurel Welcome Center in his name to the applause and cheers of a crowd of nearly 200.

A few weeks later, about 700 highway-industry professionals attended the Maryland Quality Initiative (MdQI) Conference January 30th and 31st. Governor Hughes was a guest speaker, "President Dwight D. Eisenhower" made an appearance and hosted a game of "Highway Jeopardy" while members of the industry – who were especially good sports about it – wore funny hats, answered trick questions and helped the conference get off to a light-hearted beginning. The next day, conference attendees saw a sneak peak of the documentary being produced at Maryland Public Television that debut this fall. There's lots more going on this year to celebrate the public-private partnership that has always characterized Maryland's road building.

Upcoming event dates for your calendars include:

- April 30, Noon – 2 p.m. Engineer's Club Luncheon featuring Transportation Secretary John D. Porcari, marking the actual anniversary date of the founding of the State Roads Commission. **Centennial Celebration sponsors will receive a complimentary set of tickets to this event.**
- April 30 Safety Campaign kick-off. SHA and its State Police and EMS partners will launch a new "umbrella" traffic safety campaign with a special media blitz on safety for 100 days.
- Late May, BWI Thurgood Marshall Airport Bridge unveiling and display. In 1919, Lieutenant Colonel Dwight Eisenhower accompanied a military convoy across the United States that started out at Washington D.C. The convoy was stopped in its tracks at the covered bridge in Emmitsburg, Maryland. This nearly full-size re-creation will be on display at BWI Thurgood Marshall Airport, and filled with photographs of the last 100 years of modern road building in Maryland.
- May 31, Soapbox Derby. Centennial sponsors are helping to support entrants to this annual event, whose winners go on to compete in the national Soapbox Derby.
- June 15, Maryland Science Center Exhibit. A "how-to" exhibit that takes participants through a history of Maryland roads, while simultaneously demonstrating how Maryland engineers and technicians work to keep our roads safe.
- June-July, regional and county fairs. Centennial celebrants will be featured at venues throughout the state.
- July-August, Commemorative Book Release
- August-September State Fair. 100th Anniversary Sponsors will be recognized at the State Fair in Timonium, Maryland.
- October 4 – Industry Gala: This is a proposed, ticketed charity event to be hosted by industry, not the Centennial Committee. Details are still being finalized.
- October/November: Commemorative Book Release Party. Date and time TBD.
- Mid-November – MPT Documentary Premier.

Did you notice that the Safety Campaign kick-off coincides with the April 30th luncheon? That's no accident. Because our first priority at the State Highway Administration has always been the safety of our customers, we're tying-in the idea of safety to our Centennial Celebration in a big way.

JMT's Fred Mirmiran and other 100th Anniversary of Modern Highway board members have created a lasting legacy for the Centennial Celebration by founding the "Maryland Highway Safety Foundation," a 501(c)3 organization that will direct excess funds to groups that promote highway safety or help to save lives after highway crashes.

If you haven't yet signed up to be a sponsor, contact ACEC's Jim Otradovec at 410-539-1592 for details on how your company can become part of the celebration.

ACEC/MD CONFERENCE HOTEL ROOM DEADLINE IS MAY 19TH

ACEC/MD's 20th Annual Conference, being held June 25-28, 2008 in historic Charleston, SC is right around the corner, and you need to get your hotel room reservation today. The cut-off is May 19th, but when ACEC/MD's room block is gone, you will be unable to take advantage of the \$275 per night ACEC/MD conference rate compared to Charleston Place's published rate of \$569.

In addition to the beauty and history found in Charleston and valuable opportunities to network with other ACEC/MD representatives during a tour of Charleston harbor and during golf at the challenging Rivertowne Country Club, we will be joined by national expert Mike Ingardia of Systems Management Consultants, who will present timely information on "How To Protect Project Profits During Lean Times."

The program schedule is as follows:

Wednesday, June 25

- 4:00pm – Executive Committee Meeting
- 6:00pm – Reception

Thursday, June 26

- 7:00am – Breakfast
- 9:00am – Golf
- 10:00am – Non-golfer/spouse activity
- 6:30pm - Cruise

Friday, June 27

- 7:00am - Breakfast
- 9:00am – Session
- 12:00pm – General Membership Meeting Luncheon
- 6:00pm – Reception
- 7:00pm – Banquet

Saturday, June 28

- 9:00am – Technical Tour
- 6:00pm - Reception

(All events & times are tentative.)

Make your hotel reservation today by calling 1-800-831-3490 or go to groupres@charlestonplace.com.

MEMBER FIRMS ASSIST IN ATTRACTING STUDENTS TO THE PROFESSION

ACEC/MD previously circulated requests for promotional items to be used for visitations to area schools, Engineers Week activities for students, and the MdQI career day. ACEC/MD would like to thank the following firms for donating promotional items:

- Century Engineering
- Development Facilitators
- Dewberry
- EBA Engineering
- Gannett Fleming
- Greenhorne & O'Mara
- Greenman Pedersen
- Johnson, Mirmiran & Thompson
- McCormick Taylor
- Rummel, Klepper & Kahl
- Sabra, Wang & Associates
- Schlenger/Pitz & Associates
- Schnabel Engineering
- Wallace, Montgomery & Associates
- Whitman, Requardt & Associates

ACEC RETIREMENT TRUST PROVIDES AN IMPORTANT BENEFIT TO OUR MEMBER FIRM REPRESENTATIVES

The ACEC Retirement Trust provides retirement programs to ACEC member firms at discounted rates. Retirement programs available through the trust include 401(k), Profit Sharing, Defined Benefit, Deferred Compensation, ESOP, Simple IRA's and more. The Trust offers comprehensive retirement solutions to member firms of all sizes.

The ACEC Retirement Trustee's are proud to announce a new 3 year contract with Prudential Retirement and Wachovia Securities effective January 1, 2008. The renegotiated contract focuses on continuing the high level of service to the member firms and passes on even greater savings to both the firms and their employees.

The Trust retains an independent consultant, RBC Dain Rauscher, to negotiate on its behalf. Under the new contract, RBC Dain Rauscher's research shows that the

"The average ACEC plan saves roughly 50% on its plan investment and administrative expenses. For some companies, this savings alone may be enough to offset their ACEC state and national dues."

average ACEC plan saves roughly 50% on its plan investment and administrative expenses. For some companies, this savings alone may be enough to offset their ACEC state and national dues. This sav-

ings, coupled with the range of investment choices, fiduciary protection, administration, recordkeeping and education can make the ACEC Retirement Trust a tremendous benefit for ACEC member firms.

The Trust would like to work with you. Benefits to your firm may include: savings on administrative fees, expanded fiduciary protection, lower investment fees, high quality recordkeeping, customized education and proactive plan design services. To receive a proposal, plan comparison analysis or more information, please contact Nancy Barrette at Wachovia Securities. Call (248)433-8562 or email nancy.barrette@wachoviasec.com.

ACEC/MD WELCOMES A.D. MARBLE & COMPANY AND GLOCK SMIDT ENGINEERING TO THE FOLD

The following firms have been elected to membership:

A. D. MARBLE & COMPANY
10989 Red Run Boulevard, Suite 209
Owings Mills, MD 21117
Telephone: 410-902-1421;
FAX 410-902-8856
Rep.: Jessica Klinefelter
Website: www.admarble.com

Brief History and Activities of the Firm: A. D. Marble & Company is an employee-owned environmental, cultural, and engineering firm specializing in environmental resources studies, cultural resources studies, and a variety of engineering services. With an experienced, multi-disciplined staff, A. D. Marble & Company has developed and maintained well-working relationships with local, state and federal clients, including state departments of transportation.

GLOCK SMIDT ENGINEERING
1374 West Jarrettsville Road
Forest Hill, MD 21050
Telephone: 410-893-9293;
FAX 410-893-9295
Rep.: Martin Meehan
Website: www.gsei.com

Brief History and Activities of the Firm: Founded in 1995, Glock Smidt Engineering (GSE) is a full service mechanical and electrical engineering consulting firm that provides engineering and design expertise for the building construction industry, including but not limited to new building construction, tenant renovations, building system evaluations, and upgrades to existing systems for code compliance.

We welcome A. D. Marble & Company and Glock Smidt Engineering as members of ACEC/MD. The next time you see one of their representatives, please take the time to let them know we're glad that they have joined the Council!

MEMBER NEWS

- **GEORGE, MILES & BUHR (GMB)** is pleased to announce that *Peter Bozick, P.E.* has been reappointed by the city of Salisbury to serve on the Building Board of Adjustments and Appeals. GMB also announced that *Jennifer Langley* has joined the firm as a marketing intern in their Salisbury office.

- **JOHNSON, MIRMIRAN & THOMPSON (JMT)** is pleased to announce the following:
Michael C. Hild, P.E., has been promoted to Senior Vice President, responsible for managing the firm's Facilities Division.

Also, the following have been promoted to Senior Associate:

Ben Assavakarint, P.E.
Jeffrey Lins
Richard Partlow
Tony Dung-Ning Yu, P.E.
David Wetzel, P.E.

And, the following have been promoted to Associate:

Craig Friedman
Kathy Hammel
Alicia Abad, E.I.T.
Giovanni Balsamo
Matthew Keller, P.E., LEED AP
Judy Mewborn
Christina Sabolcik, P.E.
John Scott, CP
Tony Zhang, P.E.

- **KCI TECHNOLOGIES** announces the following:

Promoted to Senior Associate:

Richard N. Kingsbury, RLA, LEED
Christopher L. Overcash, P.E., BCEE
G. Raymond Schulte, P.E., BCEE

Promoted to Associate:

Steven E. Anderson, P.E.
Deborah K. Brown
Nicholas L. Gournaris, Jr.
Andrea E. Lake, CA
Kelly Lyles

The firm also announced that Senior Vice President *Thomas G. Sprehe, P.E.*; Environmental Engineering Division Chief *Timothy W. Wolfe, P.E.*; Project Engineer *Christopher L. Overcash, P.E.*; and Senior Project Manager *G. Raymond Schulte, P.E.* have received their Board Certified Environmental Engineering (BCEE) registration.

- **PRIME ENGINEERING & ARCHITECTURE, INC.** announces that the name and ownership have changed to the following:

PRIME ENGINEERING, INC.
Kumar Buvanendaran – President

The contact information for the firm remains unchanged.

- The partners of **RUMMEL, KLEPPER & KAHL (RKK)** are pleased to invite *Michael W. Myers, P.E.* into the partnership, effective April 1, 2008. With over 22 years of experience, Mike began his career at RK&K in 1990 in the firm's Environmental Engineering Department.

- **SCHNABEL ENGINEERING, INC.** announced the promotion of *Jennifer D. Wolfson* to associate and vice president of the firm.

- **STRAUGHAN ENVIRONMENTAL SERVICES, INC.** recently received one of Maryland's Top 100 MBE awards.

- **URS CORPORATION** employees *Janie Tiedeman, P.E.*, President of the WTS Baltimore Chapter and *Alan Straus, P.E.*, Director-At-Large for the Board of Directors of the WTS Baltimore, were named WTS Baltimore Chapter 2007 Woman of the Year and Member of the Year, respectively.

- **URBAN ENGINEERS** is pleased to announce the addition of *Vincent Pielli, P.E.*, as the Manager of the firm's Baltimore office.

CONGRATULATIONS, YOU DID IT!

THANK YOU FOR YOUR CEPAC CONTRIBUTIONS

2007 marked the first year of ACEC/MD's second four-year pledge cycle for CEPAC fundraising. We very much appreciate the member firms and their employees listed below that made 2007 contributions, and helped ACEC/MD more than double its CEPAC fundraising initiative since starting this pledge program.

As you are probably aware of, CEPAC is ACEC/MD's legally registered Political Action Committee, consisting of a Chairman and Treasurer appointed by the ACEC/MD President and two other members appointed by the CEPAC Chairman. Funds raised by the committee are used for the election of candidates to public offices in the state of Maryland.

While ACEC/MD came up short of achieving the goal of raising \$100,000 from 2002-2006, we are pleased to announce that ACEC/MD was able to raise approximately \$70,000 during that time frame. Through your CEPAC contributions, ACEC/MD is now able to make meaningful contributions to legislators. These contributions get the attention of elected leaders in the state, which often provides the opportunity for our member firm representatives to educate them on the issues of importance to your firm. In today's political process, meaningful contributions and grassroots lobbying are the tools to carry your message forward. Suggested contributions for leaders of ACEC/MD, which includes Executive

Committee members and committee chairs is \$200, while it is hoped that leaders of ACEC/MD firms will contribute \$100.

Thanks to the following firms and individuals that helped ACEC/MD carry the message of the profession to our elected leaders:

Member Firms:

A. Morton Thomas & Associates
 Century Engineering
 Development Facilitators, Inc.
 EBA Engineering
 EBL Engineers
 Froehling & Robertson
 Johnson, Mirmiran & Thompson
 KCI Technologies
 PB
 Prime Engineering
 RJM Engineering
 Rummel, Klepper & Kahl
 Schnabel Engineering
 Straughan Environmental Services
 Urban Engineers
 Wallace, Montgomery & Associates
 Whitman, Requardt & Associates
 Whitney, Bailey, Cox & Magnani

Individuals:

Doug Andrew (Jacobs)
 Jim Blake (KCI)
 Dan Cheng (JMT)
 James Cook (Urban)
